WHAT IS APPRENTICESHIP?

APPRENTICESHIP IS AN ON-THE-JOB TRAINING PROGRAM FOR PEOPLE WHO WANT TO PURSUE A CAREER IN THE SKILLED TRADES. ABOUT 90 PERCENT OF APPRENTICESHIP TRAINING OCCURS IN THE WORKPLACE UNDER THE SUPERVISION OF SKILLED TRADESPeOPLE, THE REST OF THE TIME IS SPENT LEARNING THEORETICAL AND TECHNICAL ASPECTS OF THE TRADE, USUALLY AT A POST-SECONDARY INSTITUTION SUCH AS A COLLEGE.

HOW DOES AN APPRENTICESHIP WORK?

Apprenticeship involves an agreement between a person who wants to learn trade-related skills and an employer who needs a skilled tradesperson. In the case of traditional apprenticeship, an individual must be employed to begin an apprenticeship and the employer must agree to apprentice the person in a trade. Apprentices earn while they learn. It is a training agreement between the employer, apprentice and the government. In the absence of an employer relationship, Conestoga can assist in identifying other pathways to apprenticeship.

FINDING AN EMPLOYER

An individual interested in becoming an apprentice can usually apply directly to an employer, union or sponsor group. Apprenticeship programs can range from two to five years in length and during that time the apprentice receives wages based on his/her skills.
